EXPERIENCE

Edgistify, Mumbai - *Front-End Developer*

Jan2023 - PRESENT

- My role in the development and maintenance of the primary website for Edgistify, employing a skill set encompassing HTML, CSS, and JavaScript.
- This experience allowed me to cultivate a robust proficiency in web development technologies while actively contributing to the overall success of the Edgistify platform.

Trell, Bangalore- *Front-End Developer*

Sept 2022 - Dec 2022

- Previously held the position of Front-End Developer, specializing in the development of a comprehensive dashboard using Next.js, at Trell.
- I worked on the creation and optimization of an intuitive and dynamic dashboard interface. Leveraging advanced proficiency in Next.js.

Faclon-Labs, Mumbai- *Front-End Developer*

July 2022 - Sept 2022

- Worked here as a Front-End Developer, specializing in Angular JS, at Faclon-Labs.
- I actively collaborate with cross-functional teams to translate design concepts into responsive and efficient code.

PROJECTS

Text-util - [Live Website](#)

DEC 2022

- Developed an API that the users can utilize to make corrections in their paragraphs such as grammatical corrections, punctuation corrections etc
- User can see a Preview of their text and how long it will take to read the text

Game: Guess My Number - [Live Website](#)

Aug 2022

- User guesses the hidden number and gets scores according to the algorithm.
- Used DOM manipulation, JavaScript, HTML, and CSS

Game: Pig Games - [Live Website](#)

Aug 2022

- Two-player game. The player who reaches the number 100 first wins
- Users can save their score and when the number 1 appears on the screen for either of the players, their score becomes 0.
- Used JavaScript, HTML, and CSS

EDUCATION

Gov. Engineering College, Bikaner- *B.tech(Computer Science)*

July 2018 - July 2022

- I completed my B.tech in Computer Science Engineering.
